

SMITH  FELTON
a d v i s o r y s e r v i c e s

Smith & Felton is an international consultancy group that provides a various range of advisory services, as:

- Project Financing
- Corporate Finance
- Accessing to EU funds
- Strategic advice
- M & A
- Restructuring
- Contract Management

Among various domains of activity, Smith & Felton is offering consultancy services for infrastructure projects, mainly for airports, roads, railways and underground, but not limited to just these..

In this respect, **Smith & Felton** is willing and able to offer, as an experienced company and using unlimited resources, the following consultancy services for the new or running contracts of your company:

- Contractual and technical assistance in order to prepare all kinds of correspondence to be addressed to all involved parties in the contracts: the Consultant, the Employer, the Designer, for the benefit of the project;
- Support in relation with third parties, at the Client's request;
- Support in relation with your specialized subcontractors-monitoring of the progress of the works by direct supervision;

- Notifying in due time about eventual delays in works progress, non conformities, faults of the subcontractor's personnel in respect with quality of the performed works, or any other discrepancies that might occur on site;
- Technical and legal assistance in the preparation of the specific documents for claims, as required in DAB, or arbitration;
- Support in relation with identification and preparation of the variation orders;
- Support for the financial monitoring of the contract, in respect with the framing into the budget, or assistance for the cash flow preparation;
- Support in preparation of the program of works;

Smith & Felton's team of specialists can address the most complex requirements of infrastructure projects. We aim to bring effectiveness based on our result oriented attitude and the added value of our specific services:

- Experienced team of FIDIC specialists;
- Dedicated multidisciplinary team with a fully comprehensive & multidimensional approach to projects: technical, legal and financial;
- Playing the role of mediator between the contracting authorities and the contractors;
- Tracking high performance indicators within project implementation;
- Generating solutions for cost control and for obtaining additional financial resources for the contractors in the context of the project implementation;
- Access to a network of international experts to assist in providing services to the highest standards of specific expertise;
- Allocation of permanent experts on the client construction site;
